ख्यातनाल आवेदनों में नहीं हो सकेगा संशोधन
आवेदकों को संशोधन करने का अधिकार तकनीकी, ख्यातनाल पत्रों के लिए जारी होने वाले नोटिस, लक्षित मौगलों का निरस्तरण करने के निर्देश

भीतरीत: ख्यातनाल पत्रों में पुर्वपक्ष के लिए ख्यातनाल विषयों में एक बार पत्र लिखा गया है। आवेदनों में क्षेत्र के लोगों ने निम्न को संशोधन पत्र का नाम अटकाता नहीं किया जा सकता।

यह नए नियम 31 जनवरी से राय से लागू होगा। इसके बाद कई आवेदकों को और से निम्न के साथ ख्यातनाल किया गया है। इसे अभी तक आवेदन को यहां दी गई जाना।

ख्यातनाल नई नियम विभाग, उदयपुर के निर्देशक ने आवेदकों को राय के सभी ख्यातनाल अभिव्यक्ति संदर्भ का निर्देश दिया है। क्योंकि अब अश्लील ख्यातनाल के लिए अभियंता के लिए गया है। इस सुविधा के लिए इसे हिंदी में पत्रों का नाम अटकाता नहीं किया जा सकता।

उल्लेखनीय है कि हाल ही में ख्यातनाल पत्रों में पुर्वपक्ष की ओर से ख्यातनाल अभिव्यक्ति को लेकर गई वेबसाइट कर लिया गया कि इसके लिए यह अभियंता ने आवेदन करने का निर्देश दिया।
वैशिक संकेतों से घरेलू बाजार में कॉपर सस्ता

घरेलू बाजार में कॉपर के दाम दो-तीन रुपये लुढ़के होने के बिना नियम बाकी नहीं है।

अंतरराष्ट्रीय बाजार में कॉपर की कीमतें मिलकर असर फेलू बाजार में भी देखी जा रही है। फेलू बाजार में लिक्ड एक सूल के दौरान कॉपर के योग्य भाव में 10-15 पौंड से अधिक हो रहा है। इस दौरान वैशिक रस्ता पर भी कॉपर की कीमतें में कमी 23 पौंड से अधिक हो रही है।

गुंगार को वैशिक बाजार में सूर्य के मुकाबले दौरान मजबूत होने और अपने में ज्यादा नीलामी के कारण घरेलू बाजार में कॉपर की कीमतें में दो-तीन रुपये प्रति किलो मिली है। कॉपर की राख 461-463 रुपये प्रति किलो में आई है।

461-463 रुपये प्रति किलो में आई है।

464-443 रुपये प्रति किलो में आई है।

Rama Sethu: Centre to reveal fate in 8 weeks

New Delhi: Eight weeks later, the Centre will reveal to the Supreme Court, fate of the controversial Sethusamudram Shipping Canal Project, the work on which was stayed following its structural alignment posing harm to the mythological Rama Sethu.

With an expert committee headed by Nobel laureate and eminent environmental scientist RK Pachauri tasked with the study of whether the project was feasible without damaging the Sethu, the Centre on Thursday informed the Court that the report will be tabled in Court in eight weeks.

The Committee constituted on June 29, 2008 comprises Acting Director, National Environmental Engineering Research Institute, Director, National Institute of Oceanography, Director, National Institute of Oceanography, Chief Hydrographer, Government of India, and Director General, Geological Survey of India. Tamil Nadu government's Principal Secretary (Environment and Forests) and Ramanathapuram District Collector have been included as special invitees.

The Bench of Justices HL Dattu and CK Prasad posted the matter for hearing on March 27 after it recorded the submission of Additional Solicitor General (ASG) Harin P Raval. The Court even directed the Centre to supply a copy of the report to the petitioners. One of the petitioners Subramanian Swamy demanded the Sethu to be declared a national monument, which the Court would consider after going through the report.

Metals: Q3 to be mixed bag
Earnings of most metal firms to remain weak, on falling prices and forex losses

The metals and mining sector has grown at a spectacular pace since 2004. As the world economy expanded, the consumption of metals rose steadily, triggering mega capacity expansion by many players. But most metal stocks declined by 40-55 per cent in 2011 and are trading between 0.5-1 times book and 5-7 times Ebitda.

At the start of the last financial year, the expectation was that even though growth would moderate in some developed parts of the world, India and China would hold up. But with growth cooling in these two economies, metal prices have corrected. Coupled with this, demand has come under pressure even in the domestic market, especially for steel. Going forward, analysts expect rising cost pressures and lower profitability to hurt the metal stocks for some more time.

Compared to the second quarter of the current financial year, prices of most metals have fallen by 11-19 per cent in dollar terms. While non-ferrous commodity prices have declined by up to 12-19 per cent quarter-on-quarter, average aluminium realisation is down 2.8 per cent. According to Kotak Institutional Equities, companies with lower reliance on raw material imports stand to benefit. Hindustan Zinc and Hindalco stand out in this respect.

For steel companies, too, the outlook remains bleak. According to ICICI Securities, higher raw material costs and stickiness in pricing will lead to an estimated 400 basis points year-on-year margin drop for Tata Steel, SAIL and JSW Steel. The brokerage expects Tata Steel to post an Ebitda loss of $30 a tonne in the third quarter.

The only commodity where Indian companies have retained profitability is zinc. Analysts say Hindustan Zinc has outperformed its global and regional peers across the value chain. According to ICICI Securities, Sterlite continues to reel under investor concern of possible equity reinvestment in Sterlite Energy and Vedanta Aluminium. Analysts say though the fall in the rupee would cushion lower realisations due to fall in prices globally, companies with forex loan exposure would also have to provision for marked to market losses. In a report on the sector's third quarter outlook, Kotak Institutional Equities, says: “We expect Ebitda/tonne of $4.967 ($2.75 per cent QoQ, -275 per cent YoY) from JSW Steel and Ebitda of $1.030 crore ($25.9 per cent QoQ). This combined with forex loss of $230 crore will result in the company reporting net loss of $50 crore in the third quarter FY12 as against net income of $90 crore in the third quarter of FY11.”

MALINI BHUPATI
EIA team inspects mining areas

The Supreme Court appointed Environment Impact Assessment (EIA) team on Thursday visited mining areas in Sandur taluk of the district to further assess the damages caused by mining activity. It would also inspect mining areas in Tumkur and Chitradurga for about eight days from Thursday.
NMDC drops acquisition plan for US coal mine

PRIYADARSHI SIDDHANTA
NEW DELHI, JANUARY 5

STATE-RUN mining company NMDC has dropped the takeover bid for Tacoma coal mine in the US owing to the high accident rates and adverse geological conditions there. This development comes soon after the company dropped its bid for the Vince coal project in Russia and the Greystone iron ore mine in Brazil.

The NMDC board, after extensive deliberations on December 2, shot down the proposal to acquire the Tacoma mine for $90.74 million. The directors observed that legal consultants hired for due diligence have advised against the acquisition bid as the mine has definite legal issues.

In addition, the reserves do not meet the guidelines of the concerned US agencies and have not been estimated through scientific mining methodologies. The board also expressed the apprehension that NMDC is a known iron ore mining firm and has no expertise in mining coal.

“As per the diligence reports, several companies have previously mined coal from Tacoma’s leased property and the adjacent one. However, it was observed that each company experienced financial loss as a result of encountering adverse geological conditions, as Tacoma has, and ceased their operations,” the Board observed.

In view of the adverse mining conditions and high accident rates, the board expressed its objections to the takeover bid.
MEGHALAYA MINING

MEGHALAYA, ENDOWED WITH rich reserves of minerals including uranium, is soon coming out with a state mining policy, in order to regulate mining activities. According to deputy chief minister Bindo M Lanong, the draft state mining policy, already prepared taking into consideration concerns raised by various stakeholders, would be placed in the budget session of the Assembly. The mining policy was originally supposed to have been presented in the Assembly in July 2011, but could not because of stiff opposition from the strong lobby of coal and limestone mine owners.
Hindustan Copper Dazzles
Amid Talk of Stake Sale

Hindustan Copper rose over 5% on Thursday amid speculation the company’s shares will be the first to be sold among public sector companies through the recently-introduced auction system. Brokers said few operators have taken position in the stock on expectations that the government will announce an offer-for-sale through exchanges at Rs 325-350 per share. Others believe such expectations are far-fetched as the company’s current valuations are steep. As per ETIG database, the government holds 99.2% stake in Hindustan Copper. Another rumour floating around is that Hindustan Copper has given contracts worth Rs 2000 crore to a consortium of three Chinese companies to expand its production capacity. Shares of Hindustan Copper gained Rs 13.50 to close at Rs 256.75 on Thursday.

Copper slips on lower Europe industrial orders

Bloomberg
Jan. 5
Copper fell for a second day in London as a smaller-than-expected increase in Euro-Zone industrial orders stoked concern the region’s sovereign-debt crisis is threatening growth and demand for metals.

Orders rose 1.8 per cent in October, the European Union statistics office said. Economists had predicted a gain of 2.5 per cent, the median of 11 estimates in a Bloomberg survey showed.

Copper for three-month delivery slid 0.5 per cent to $7,500 a tonne by 10:17 a.m. on the London Metal Exchange, erasing a gain of as much as 1.5 per cent. March-delivery futures declined 0.7 per cent to $3.41 a pound on the COMEX in New York.

STOCKS DECLINE
Copper stockpiles monitored by the LME fell 0.2 per cent to 368,400 tonnes, daily exchange figures showed. Orders to draw the metal from LME warehouses, or cancelled warrants, advanced 2.2 per cent to 41,900 tonnes on increases in New Orleans and Mobile, Alabama.

Lead for three-month delivery on the LME fell 1.1 per cent to $2,038 a tonne and zinc declined 1 per cent to $1,849.75 a tonne. Aluminium decreased 1.1 per cent to $2,042 a tonne, nickel slumped 1.4 per cent to $18,525 a tonne and tin dropped 0.5 per cent to $19,500 a tonne.
Team to assess impact of mining in Bellary

BANGALORE: To understand the ecological impact that indiscriminate mining has had on the forest in Bellary, Chitradurga and Tumkur, a team led by Dr V K Bahuguna, Director General of Indian Council of Forestry Research and Education (ICFRE), is visiting the mining-affected areas for the next two days.

The team of 25 officials, including forest and mining officials, will conduct a study of the entire mining region to submit a report on the request of the State Government, which had asked for a detailed report on the Environmental Impact Assessment (EIA) in the mining region.

Officials from ICFRE said the team would primarily focus on Reclamation and Rehabilitation (R&R) in these districts. 

“Our primary study will be to assess the damage on the forest cover in these regions due to indiscriminate mining. Also, we will look at the social impact of mining, including migration and standard of living,” they said.

Meanwhile, Bahuguna speaking to reporters on the sidelines of the inauguration of the Wood Museum at the Institute of Wood Science and Technology - said: “On the request of the State Government, we will prepare the rehabilitation plan for the mining region in Bellary. We are leaving for Bellary tonight and will be doing field assessment for the next two days.”

Rehabilitation options

According to him, the team will look into options of rehabilitation and bringing back the vegetation in the mining areas.

ICFRE officials, along with Forest department officials, had visited Bellary, Tumkur and Chitradurga to conduct a detailed survey of the environmental loss due to mining at 120 sites in August, 2011.

The results and general guidelines were submitted by the team to the Supreme Court which had ordered an inquiry.
